

Welcome to the November 2010 edition of the 'On Line Delivery' coaching column titled

Decision Options

Here is part of my monthly training program:

Playing from the mat at the bottom of the page/screen up to the head;

THE HEAD SCENARIO

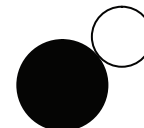

This diagram was in a bowls magazine and I have added my own version to the diagram. The Yellow player is 2 down and has the next delivery and I propose you have 6 options to try and see which one works best after repeated deliveries to see a preferred outcome:

Option 1 forehand draw to back bowl to be second shot

Option 2 forehand draw to be shot

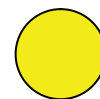

Option 3 forehand draw to right of back bowl to be on the spot mark

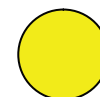

Option 4 forehand drive into our front bowls

Option 5 backhand draw to back bowl to be second shot

Option 6 backhand push into shot bowl to force jack out toward right spot mark

Find out what works, and, what not to try.
